

CAPITAL TURKEY PRICE REGULATED BY COLD WEATHER

Market Men Expect Present Prices to Prevail—Pork Products Are Lower.

Thanksgiving turkey prices in Washington will largely be regulated by the weather throughout the surrounding counties of Virginia and Maryland tomorrow, Sunday, and Monday. By this, the veteran market men explain, is meant if the weather is cold enough for shipping of dressed turkeys into the city, the prices probably will range around the present retail figures of from 22 to 25 cents a pound. However, should the weather on these days be too warm, which is unfavorable for the dressing of the birds, a rise in the price might be expected.

The local market on turkeys today refuses to be persuaded to jump by the expected increase of prices in New York. One of the market men said that turkey prices in this city are not regulated by New York, but by the supply and demand in this city.

The height of the Thanksgiving turkey's vogue will be reached Wednesday afternoon. Then a full probability will come until the approach of the Christmas season.

Few Pumpkins in Sight. There will be few pumpkins on the Thanksgiving tables in Washington. Hubbard squash has taken the place of pumpkins on the local market. The scarcity of pumpkins is said to be the most serious ever known in the District of Columbia. It was stated by a market man today that it would practically be impossible to find 100 pumpkins in Center Market today. The scarcity is attributed to the ravages of a worm which has recently preyed upon the pumpkin.

But, thanks to the Hubbard squash, there will be plenty of Thanksgiving table which but few persons will be able to distinguish from the old-time pumpkin. Hubbard squash are selling each today at 15 cents. What few pumpkins that are on the market bring fabulous prices, some selling as high as 75 cents and \$1.00.

A drop was noted in the pork prices today, but what figures people may expect for Thanksgiving market men would not say today. Pork chops sell from 15 to 20 cents a pound, where last week they brought 20 to 22 cents a pound. Pork roast dropped 2 cents a pound, and pork shoulder 2 cents. Pork sausage is selling at 18 to 20 cents, 2 cents lower than last week.

Elgin Creamery butter advanced to 44 cents a pound, 5 cents higher than the market last week. Renovated butter jumped from 33 cents a pound to 35 cents.

Average prices on the market today were:

YOUTH ARRESTED; FACES CHARGE OF MISTREATING GIRLS

Placed Under \$5,000 Bond by Commissioner and Locked Up Pending Hearing.

The second chapter of the move being made by Clyde Ambrose in clearing up matters in the Government investigation of alleged immoral conduct in and around Rossville developed today with the arrest of William Sacks, a youth of twenty-one, living at 3315 N. street northwest. Sacks is charged with mistreating young girls.

Sacks was arrested at his home this morning by Officer W. C. Farquhar, who has been associated with Special Agent Ambrose in this investigation. He was brought before United States Commissioner John E. Taylor and placed under \$5,000 bonds. James A. O'Shea, assistant United States Attorney, asked that the case be continued until next Tuesday afternoon at 2 o'clock.

United States Attorney Harvey Glens, for the prosecution, stated that other charges have been made against the defendant, but the fact that the charge may be a capital offense influenced the commissioner to impose so high a bail. The amount being practically unobtainable, Sacks was States Marshall J. R. Hawkins, and locked up.

EARTHQUAKE IN MEXICO STATE IS DEATH TO 1,000

New Volcano Starts Disturbances Which May Depopulate District.

MEXICO CITY, Nov. 22.—Late reports from the State of Mexico received today place the number of dead as a result of Tuesday's earthquake at more than 1,000. Every building in the city of Acambay was demolished. More than 100 persons were worshipping in a church which was wrecked and all were buried in the wreckage. Other towns in the northern part of the State are reported to have been destroyed and hundreds killed or injured.

A great hill in the center of the stricken district has turned into a volcano, and today was smoking and throwing up great masses of rocks, which are crashing into the village at the foot of the hill.

Scientists here today declared that the district is a new earthquake center, which will constantly menace Mexico City, as it is less than fifty miles away. Slight shocks have been felt at intervals since the big earthquake Tuesday, and the district is being rapidly depopulated.

LECTURER TELLS OF TUBERCULAR CURE

Jewish Relief Society of Denver Described by Dr. Spivak.

The work accomplished by the Jewish Consumptive Relief Society of Denver, Colo., formed the subject of an interesting talk by Dr. C. D. Spivak, one of the founders of the sanitarium, at the Eighth street Temple last night under the auspices of the United Hebrew Charities. The lecture was illustrated with lantern slides showing the buildings, tents, grounds of the institution, the solarium, library, and other apartments. The speaker was introduced by the Rev. Abram Simon.

Dr. Spivak emphasized the fact that the Denver institution takes all cases, not merely the incipient ones, on the ground that the more advanced is the

disease the more in need of treatment is the patient. The society was organized in January, 1904, and has received a total income since then of nearly \$600,000. The total number of cases admitted up to January 1, 1912, was 1,415. There are 129 beds. Two resident physicians and six nurses attend the needs of the patients. The society has nearly 50,000 members and branches in nearly all parts of the country.
